

barre.h

```
graph TD; barre_h[barre.h] --> string[string]; barre_h --> iostream[iostream];
```

A diagram illustrating a dependency relationship. At the top is a gray rectangular box labeled 'barre.h'. Two dark blue arrows originate from the bottom edge of this box. One arrow points diagonally down and to the left to a white rectangular box labeled 'string'. The other arrow points diagonally down and to the right to a white rectangular box labeled 'iostream'. All boxes have a thin black border.

string

iostream
